INFORMATION DISCLOSURE STATEMENT

RECEIVED

Commissioner

Technology Center 2600

Sir:

The following information is submitted in compliance with Applicant's duty of disclosure under 37 C.F.R. §1.56. However, the present information disclosure statement is being filed after a Final Rejection Office action, indicated as Paper 12 in the File Wrapper, in the present application. Also, the present information disclosure statement is being filed after the references being cited herein were known by an individual designated in 37 C.F.R. §1.56 more than three (3) months prior to the filing of the present information disclosure statement. As a result, Applicant wishes to file the present information disclosure statement pursuant to 37 C.F.R. §1.97(f), wherein C.F.R. §1.97(f) recites that an information disclosure statement may be permitted if a bona fide attempt to comply with 37 C.F.R. §1.98 was made but part of the required content was inadvertently omitted. Applicant contends that a bona fide attempt to comply with 37 C.F.R. §1.98 was made, with such a bona fide attempt being shown by previously filed information disclosure statements filed in the present application and indicated as Papers 4, 6, 8, and 13 in the File Wrapper of the present application. However, certain references were inadvertently omitted and not made of record in the present application. Specifically, an Office action mailed January 16, 2004,

indicated as Paper 12 in the File Wrapper, rejected the present application under the judicially created doctrine of obviousness-type double patenting as being unpatentable over copending patent application 09/851,857. Applicant did not believe that the claims that define the present invention were obvious in view of the invention defined by the claims of patent application 09/851,857. Without admitting to this finding, the Applicant wishes to include any cited references contained within copending patent application 09/851,857 that were inadvertently omitted in the present application, which results from our belief that the present application is not obvious in view of patent application 09/851,857. Form PTO-1449 and the requisite copies of each reference recited below accompanies this document. It is respectfully requested that the cited information be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.
